

PLANE TENDER HIT By Vessels at Rabaul Blasted

ALLIED HEADQUARTERS, Australia, Oct. 26.—(CP)—Allied bombers kept up their attack on Japanese striking bases north of the Solomons Islands Sunday, sinking an enemy gunboat and damaging three merchant vessels at Rabaul, New Britain, for a total of about 100,000 tons of shipping destroyed or damaged in this port in the last three nights, it was announced today.

Trustees' Group Is Advocating Strike Delay

An alternative proposal asking for the deferment of the vote of teachers of the Veggieville school division, has been placed before the teachers by school trustees officials.

The strike has been called for Nov. 2 by P. Austin, chairman of the Veggieville school board, and E. Oliviero, president of the Alberta School Trustees' Association, has asked the teachers to defer strike plans till after Nov. 31, the date upon which the trustees' annual convention will convene in Edmonton, where the question of teachers' salaries will be considered.

Following is the report submitted on behalf of the trustees: "An unfortunate situation has arisen in the Veggieville school division, resulting in the teachers delivering to the school board an ultimatum that if their demands are not met by Nov. 2, next, they will go on strike for Nov. 2, next, until the board grants the recommendations of a Board of Arbitration held last summer.

The Board of Trustees of the Veggieville School Division and the executive of the Alberta School Trustees' Association, both realizing that a strike such as proposed would be most unfortunate and cause far-reaching consequences, have been making strenuous efforts to avert the strike.

A PROPOSAL

On Thursday last, the 22nd inst., P. P. Austin, the chairman of the Veggieville board and A. E. Ottewill, the president of the Alberta School Trustees' Association and the solicitor for this association proposed to the government that a public inquiry should be held at the earliest date possible to inquire into the question of teachers' salaries and the financial problems of public education in Alberta. The trustees' representatives proposed that the Veggieville strike be postponed without prejudice to the parties involved until the public inquiry has been held and its findings reported.

The trustees' proposals embodied the appointment of a commission of inquiry to inquire into the merits and ability, presided over by a supreme court judge, who would be empowered to weigh properly the merits of the province-wide wage increase to salaries in which Veggieville is only one incident. Trustees and teachers would be given full opportunity to present their arguments to the commission so that all angles to the dispute would be thoroughly aired and considered.

AN ALTERNATIVE

These proposals were laid before the trustees' representatives at the meeting of last week. As an alternative to the trustees' suggestion that the strike be deferred until the 31st of November, the date upon which the Trustees' Provincial Convention will convene in Edmonton, the facts being that the convention is held every six months earlier than usual and that one of the important problems for consideration is the question of teachers' salaries.

The trustees' suggestion has taken place between the Trustees and the teachers' representatives. The trustees have, however, declined to postpone the Veggieville strike in accordance with either of the trustees' proposals.

Record Quakes

SAN DIEGO, Calif. Oct. 26.—(AP)—Five light earthquake shocks were felt in the San Diego area starting at 7:37 o'clock last night. Fred Robinson, seismologist, said his machine recorded the shocks at 7:37, 8:04, 8:16 and 8:44 p.m., P.D.T. 10:34 to 10:44 p.m., C.D.T.

FIVE ATTACKS REPULSED Full-Scale Air Assault Launched on Guadalcanal

WASHINGTON, Oct. 26.—(AP)—Full-scale fighting has started on Guadalcanal Island with United States soldiers and Marines repulsing five heavy Japanese onslaughts, the navy reported last night, but the foe has launched fresh assaults.

The Japanese opened their big push Friday night, laying down a heavy artillery barrage and then throwing tanks and troops against the Americans' western defense lines. They held firm throughout the four attacks that were repulsed.

The enemy attacked again Saturday night, but the Japanese troops and destroying five of their tanks.

In his sermon, Mr. Miller defined the meaning of the resurrection of the living God as the living God who was concerned with His people.

The non-religious man assumed that he will work out his own fate, consequently he puts his faith in people and in the future.

Yank Bombers Make 2 Raids On Hong Kong

CHUNGKING, Oct. 26.—(AP)—United States Army Air Force bombers struck at Hong Kong early today for the second straight day and followed up with an attack on the White River area near Canton, it was announced.

The North Point power station, which was destroyed in the morning's attack, a communiqué from U. S. Gen. George M. Kenney said, was in the target area.

In the raid later on the White Cloud airfield which is northeast of Canton, the war bulletin said, many fires were started and a heavy explosion was noted.

The Japanese attempted to intercept the bombers but both missions were accomplished without loss of a single plane.

SECRET ROUTE REVEALED

Thousands of Allied Planes Ferried to Middle East Zone

By WES GALLAGHER

LONDON, Oct. 26.—(CP)—

Aircraft by the thousands from British and United States factories have been delivered to the Middle East during the past two years over a 6,000-mile secret route across equatorial jungle and desert from West Africa.

The air ministry, in lifting the secrecy from one of the greatest air feats done by the United Nations, disclosed that the service which started on the basis of two or three convoys a week, now operates daily with a negligible loss in planes and personnel.

Bombers, transports and fighters all make up the strength of the convoys to the front, with fighters carrying extra fuel tanks for the longer hops.

WEST COAST BASE

Starting from a great still-expanding west coast assembly base, each journey takes 24 hours flying time, exclusive of stops at landing fields where engines are checked and planes refueled.

A tremendous job of pioneering and organization has changed the once perilous trips into fairly routine journeys along a route spotted with many emergency landing fields and provided with good meteorological service.

British and United States civilian

air companies have contributed to the ferrying operations while natives by the thousands carved intricate landing areas from dense jungles. Western keynotes of the service is a few lone white men, only a small aircraft when the program was launched two years ago but now has more than 1,000 planes and best equipped aircrews in the world.

In addition, to handling warplanes, the air lifeline has been extensively used by communications planes carrying official mail and personnel; and it is probable that after the war the route will be one of the world's great commercial air lines.

Among the increasingly large number of pilots working the route are mostly law Poles who themselves have flown more than 1,000 planes across Africa with only a few percent loss.

Although the hazards now have been greatly reduced, the vast operation has produced many stories of adventure, such as that of the young R.A.F. lieutenant who was forced down in a trackless jungle in a flaming plane, burned and hurt, he was taken by natives

eight miles to a French outpost where he stumbled into the office of a French official, who, with great dignity, saluted, "Excuse me gentlemen"—and then fainted.

WILD COUNTRY

"I cross what I believe is one of the most interesting stretches of country in the world," one pilot said.

"It is crammed full of lions and other wild animals. I prefer to stay in the air."

"The most boring part of the trip is a stretch of more than 2,000 miles over the Sudan which is nothing but bare desert, the only way except for two stopping places."

Once we arrive at Khartoum (in the Anglo-Egyptian Sudan), we reckon the trip is as good as over because from there it is a straight run up to Egypt.

City Physician is Awarded Diploma By Royal College

OTTAWA, Oct. 26.—(CP)—Dr. E. A. Holton of Bentley, Alta., and Surgeon Lt.-Col. G. H. Grant of Victoria, were awarded Fellowships in Surgery by the Royal College of Physicians and Surgeons of Canada at its annual convocation yesterday.

Dr. H. O. Burrell and Dr. W. A. McMillan, both of Winnipeg, were awarded Ardourum Fellowships in the Royal College of Surgeons of Canada.

A diploma as lecturer was presented to Dr. W. F. Gillespie of Edmonton.

Destroyer is Named For Great War Hero

NEW YORK, Oct. 26.—(AP)—The destroyer D-28, named for the Marine Sergeant Major who, the navy said, led a great war attack in France with the cry, "Come on, you—do you want to be a hero?"

Mrs. Roosevelt Just "Eleanor" To U.S. Troops

LONDON, Oct. 26.—(AP)—Mrs. Franklin D. Roosevelt, who has become "Eleanor" to American troops here, said yesterday that these troops have confided to her the two things they want most—thicker socks and more letters from home.

American soldiers were on hand early to give her a cheery greeting at the gate of Buckingham Palace where Mrs. Roosevelt is the guest of the royal family. When she drove out this morning they yelled: "Hello, Eleanor."

Visits Centres
Mrs. Roosevelt and her secretary, Mrs. Malvina Thompson, visited the Washington Club, the American Red Cross biggest service centre here. In the cafeteria Mrs. Roosevelt addressed the crowd.

"I am anxious to see men in every phase of the service, so I can tell the people at home some of the details of your life which you may forget to mention in your letters," she said.

"One thing I learned already—you would like thicker socks."

"I learned also that you would like more letters. One of you told me he hadn't any mail for two months. My boy in the Solomon Islands, 'God bless him and whoever you joined up with the Queen's Own Cameron Highlanders. He told Mrs. Roosevelt that shrapnel wounds suffered at Dieppe gave him a 45-per cent disability rating."

One Bottle Daily Ont. Liquor Limit

TORONTO, Oct. 26.—(CP)—The Ontario Liquor Control Board yesterday issued an order, effective Monday, limiting individual purchases of spirits to one bottle a day.

Following is the announcement made by the board: "During the past few days, sales from liquor control board stores in the province of Ontario have been of such volume as to indicate hoarding of liquor on the part of a number of citizens."

"As a result of this situation and in view of the fact that there are ample supplies of all classes of

diapers sold at Dropper. He is Pte Stanley Hamilton, 20, who rode the rails from his home in Del Rio, Tex., to Canada three years ago and joined up with the Queen's Own Cameron Highlanders. He told Mrs. Roosevelt that shrapnel wounds suffered at Dieppe gave him a 45-per cent disability rating."

Today's War Moves

Continued from Page One

three months ago, the British have been heavily reinforced in men, planes and tanks. American equipment has played a large part in building up for the offensive.

It is clear that the United Nations air force has complete mastery of the air. Whether the Allies are superior in men and tanks it is impossible to say, but it is permissible to surmise that they are at least equal or they would have taken more time to prepare before launching a major offensive. If there is equality on the ground, air supplies may tip the balance.

AXIS SUPPLY HIT

Manfred Ewin Rommel has the disadvantage of long supply lines across the desert from Tripoli and Benghazi. The Allied air force had made nearer ports almost unusable. British planes and submarines have been hitting Axis supplies ferried across the Mediterranean. Rommel is especially short of oil and gasoline, essential for the operation of his tanks, mechanized units, planes and for transport.

Multitry, however, Rommel's position is strong. He holds a line in a bottleneck about 40 miles wide between El Alamein and the sea and the impossible Qattara depression in the desert. He cannot be outflanked, as it is possible in open desert warfare, unless, perhaps, the British lead a sea-borne expedition at Matruh.

Today's German communiqué, incidentally, spoke of frustrating an attempted landing at Matruh which suggested the British may have contemplated some such maneuver.

The bottleneck extends in depth from the Alamein line about 100 miles to a line running south from Matruh. Rommel is known to have built deep defenses of mine fields, barbed wire, tank traps and artillery replacements for most of that distance.

That is going to make his position hard to crack and means that the British probably will have to fight hard for every yard of ground. Today's Cairo dispatches say that the British have driven a wide gap in the Axis line by no means an indication that there has been a complete break-down.

The importance of this offensive lies in the possibility not only that the Axis can be driven out of Africa, but that the British can regain control of the Mediterranean.

With that control, the way would be opened for a second land front against the Axis through Italy. Some Allied strategists have frequently envisaged such an offensive.

Seven U.S. Airmen Reported Missing With Rickenbacker

WASHINGTON, Oct. 26.—(AP)—Seven army airmen are missing with Capt. Eddie Rickenbacker on his ill-fated Pacific flight, the United States war department said yesterday.

The school children are helping to prepare their own programs—as their contribution to the success of the present Victory Loan.

There will be plays, pageants, music and songs. Don't disappoint your children. Go to their school with them on Tuesday evening, October 27th.

WEAR YOUR COMMANDO DAGGER

It is a small thing you have bought for one Victory Bond.

HATS OFF TO THE YOUNG PEOPLE OF CANADA!

Not old enough to serve in fighting units or in munition factories like their big brothers and sisters, they have their own special tasks and perform their nobly!

They run errands—do odd jobs—deny themselves little pleasures—so that they may buy War Savings Stamps and Certificates. And they have bought more than three million dollars of these Certificates during the past year—yes, more than three million dollars!

And how busy these youngsters have been collecting scrap—to help defeat Hitler!

Yes, they've done wonders and everyone is proud of them. Parents, friends, teachers and officials will have an opportunity to pay tribute to them on October 27th. That is the date of the "Young Canada Rally" to be held in schools from coast to coast. What an inspiration this Rally will be for the grown-ups—the men and women of Canada who are investing their dollars in Victory Bonds so that their children may grow up in a world of peace and freedom.

Facts for Parents and Friends About the Young Canada Rally

Tuesday evening, October 27th

In almost every school in Canada, the students are holding a "Young Canada Rally" on the evening of October 27th.

They want their parents and friends to "come with them to their school that evening."

The school children are helping to prepare their own programs—as their contribution to the success of the present Victory Loan.

There will be plays, pageants, music and songs. Don't disappoint your children. Go to their school with them on Tuesday evening, October 27th.

B.C. Conservatives Name 16 Delegates To National Parley

VANCOUVER, Oct. 26.—(CP)—

Sixteen delegates, including Mrs. Cecil Merritt, the wife of Lt. Col. Cecil Merritt who won the Victoria Cross for his part in the Dungeness raid, were elected by the British Columbia Conservative Association's annual convention here last Saturday night to attend the national convention in Winnipeg in December.

The province will also be represented by 71 other delegates. Each of the 16 federal constituencies will name three delegates; 20 special delegates will be selected by the association and there will be three youth ambassadors.

Never Mind Quotas

The pointer on the quota board is moving up. Edmonton will make up its quota of \$5,464,000 for the Victory Loan, Alberta will take up its allotment of \$29,000,000, and Canada will supply the \$750,000,000 asked for. This may be assumed.

But that is no reason why any person can do so who would like to apply for bonds—many of them as he can buy. The figures named are the minimum amounts required. More money is offered than will be needed. The war costs are expansive and expanding.

That these quotas will be made up is not the only matter involved. There is the other question of how the money will be raised, and in Alberta, and in Canada, will hold bonds when the campaign is over. That is a question about the importance of the raising of the amounts required.

To the carrying on of the war it may make little difference who will hold the bonds. There is a lot of difference, to a lot of people, when the war is over.

If hard times come, the person who holds a few of these bonds will be glad he had the foresight to buy them. If hard times do not return, he will have piled up some capital for his future. He will be able to build a house, start a business, or otherwise improve his position and that of his family.

The prudent thing to do is to go right on buying bonds; never mind if the quotas are being approached, or even when they are reached; keep buying until Mr. Halsey says he won't sell any more.

Just in Case

The city council is to be asked to pass a bylaw under which a resident of the city could be prosecuted for refusing to follow the instructions of an air raid warden during a blackout.

There have been very few instances of such refusal in the practices blackouts that have been in effect in Edmonton. In the event of emergency compliance would have to be one hundred per cent. It is not unreasonable to require that everyone do during a blackout what he would do if a real raid were in progress. The majority obey the instructions willingly.

There should, in the public mind, be no reason to deal with those who refuse, whether from obstinacy or plain malice. It is possible of course that Edmonton would not be hit by a real raid. But it hasn't said so, and if he did say so his promise would not be worth anything. Our liability to bombing is a matter of conjecture, but there is a certain fact: everyone in Edmonton should get clearly in mind as affecting this liability.

One is that Edmonton is no farther from the coast than Genoa is no farther; and no farther than the Jap-held coal mines in northern China are from the bases from which United States bombers have successfully bombed those mines on Friday.

The other point is that the bombing of no other place in western Canada could do such far-reaching damage as to the whole coastal defence system from Vancouver to Alaska. It is bases, not front line positions, that the heavy bombers attack.

If these facts get the attention they should get, it will not be necessary to prosecute anyone in Edmonton for refusing to follow the instructions of an air raid warden. But, just in case they get not attention by all the residents of the city, the proposed by-law is entered in order.

Team Play

Italy's triangle of northern military centres got a trifling from R.A.F. bombers four times in three days, with Genoa coming in for chief attention. That port is credited with being the main base from which reinforcements and supplies are forwarded to the Axis army on the border of Egypt.

The immediate purpose of the raids is explained by the news from Cairo. General Alexander beat Rommel to the draw, and struck first with the help of his air force by air power and naval units. The bombing attacks were calculated to put Italian factories and forwarding bases out of commission and prevent the Axis from being sent to Rommel's assistance.

For the same reason these raids are likely to become regular. It is the program, and to range farther down the peninsula and along both its coasts. With northern Italy still striking danger, the British, and the American, military centres in Italy are reachable by Allied bombers from one direction or the other. Signor Mussolini is in line to get a close-up view of the total war he used to make speeches about.

Reinforcements for Rommel could of course be moved down through the Balkans to Greek ports. But these are within still easier flying distance from Egypt than northern Italian ports. And Axis transport trains on Italian railways have been going into the ditch with a frequency that is bound to impress the enemy high command with a sense of the advantages of the Italy-Sicily supply route.

As to the relative strength of the opposing armies in Egypt very little is known to the public. But the fact that the British

forces struck first is evidence that the army wrecked by Rommel some months ago has been thoroughly retrained with the team-play between our forces there and the long range bombers in Britain is an altogether promising sign.

Tokyo must be in an expectant mood. The official radio broadcast a threat that the United States captives will be executed if the "too sacred soil" of Japan is again profaned by raiding bombers. Without doubting the willingness of the British "Argus" to take the level of the Nazi exemplars, such threats are pointless. When the time comes to bomb Japan it deserves the circumstances are likely to be such that even Japanese officials will see the advisability of acting like civilized men.

The attack on Pearl Harbor succeeded in one respect the Japanese did not intend and from which they can get little comfort. It started airplane-building in the United States on a scale not attempted even in Germany or Russia. With the result that more planes have been built there in the last ten months than were built in the preceding sixteen years. They were rolling out of the plants by May at the rate of 4,000 per month, and the pace is now approaching 5,000 per month. As to the quality of the machines, Tokyo's airmen have sorrowful first-hand information.

Looking Backward

From The Bulletin Files

1892—50 Years Ago

Constable Cassatt has been transferred to Imperial.

A. D. Osborne has returned from Ottawa. A. H. and J. H. are preparing to move their hardware store to the new location between Cameron's new store and Thompson's drug.

Dan McPhadden left this morning for South Africa.

P. Kershnan and D. D. Reed left Wednesday for Montana.

A. Cameron is building a new bridge over the river.

Co. Bull is dressing the stones at Fraser and Geo. mill.

A. Brown is building a large addition to his live stable.

R. McDonald, who used to have the Ontario Hotel, is now in South Edmonton, has rented the Big Hotel.

Frank Jeffries left for Washington on Wednesday.

Messrs. Cayley and Haultain are electioneering in the constituency of Wallace, eastern Assiniboia. Should the Haultain candidate be elected, Mr. Cayley will be enabled to elect the Speaker and will himself be a member of the House of Commons.

There have been very few instances of such refusal in the practices blackouts that have been in effect in Edmonton. In the event of emergency compliance would have to be one hundred per cent. It is not unreasonable to require that everyone do during a blackout what he would do if a real raid were in progress.

The majority obey the instructions willingly. There should, in the public mind, be no reason to deal with those who refuse, whether from obstinacy or plain malice. Preview and Review Of Sport

By Hal Dean
Sports Editor of The Edmonton Bulletin

COACH FO. JAKE JAMIESON led his R.C.A.F. football squad back to the city last night from an extremely satisfactory run on the campus of the Calgary Army and his Airmen are now conceded to have a very healthy hold on the junior title for Alberta.

Second of the two-game total-point series for provincial honours is set for Clarke Stadium at Saturday and the 10-point lead the Edmonton champions enjoy gives them a decided edge in the struggle.

The general consensus of opinion is that the No. 2 "3" Depot, had a wide margin over the Calgary representatives and also that Russ Klecko, former Maple Leaf, took a very prominent part both defensively and on the attack in the up-setting of the Cadets' plans for Saturday afternoon.

Johnny Dutchak also measured up to expectations and so did Don Hutten. Hutchen was also very effective, his driving through for 25 yards on the last play of the game left the ball three yards from the Calgary line when the whistle blew. Everybody else also agreed that the Airmen's line was much too powerful for the Cadets.

INTER-FAC FINISHES
UNIVERSITY OF Alberta students have now written their last successful inter-faculty football game and while that success may be partly attributable to the fact that there was no official senior team this fall, leaving the gates open for all players to participate, the real reason is the very efficient organization of the game.

Bob Robinson, manager of inter-faculty, Perren Baker, president of rugby, Coach Tommy Hays and Steve Olander and the four team managers, Jack Garvin of the Aggies, Don Buckley of the Engineers, Lloyd Johnson of McPherson-Dent, and Morley Tanner, Arts-Comm, all had a joint hand in football at Varsity this fall and they did a magnificent job.

To Sub For Gardiner

Dougie Stevenson Signed By Chicago Black Hawks

HIBBING, Minn., Oct. 26.—(CP)—With 13 two-hour drills behind him and starting their second week of practice, Manager Paul Thompson of Chicago Black Hawks believes his team is in particularly fine physical form for so early in a period.

The Hawks yesterday signed Dougie Stevenson, a 23-year-old defenseman from Edmonton, Alta., and Bill Kinn, a defenseman from St. Paul, Minn., to replace Bert Gardiner in case the Hawks' regular game is hurt.

Starting Sunday he allowed the Hawks in case of some of the Hawks' scoring, as he has been confirmed to his room for the strenuous two-hour drills twice a day until they open their 1942-43 tilt.

No League Upsets

Soccer Division Leaders All Keep Positions Intact

LONDON, Oct. 26.—(CP Cable)—League soccer ran true to form in England and Scotland Saturday as the leaders of the various divisions all held their positions.

Blackpool, unbeaten and united leader of the Northern League, has given a hard fight by Rochdale but won 4-3.

Arsenal and Chelsea remained first of the Southern League, while Chelsea won from Crystal Palace by the same score. Liverpool, Albion kept the top in the Western League, beating Swansea 3-0.

HIBERNIANS LOSE POINT
Hibernians lost a point to Glasgow Rangers in the Scottish Southern League, playing a 1-1 draw with Partick Thistle while the Rangers won 4-2 from Hamilton.

Hibernians now hold a four-point advantage but the Rangers have two games in hand.

WALS SPRINGS SURPRISE
England failed badly after Lawton's goal and only sterling work by the halfbacks prevented Wales from registering a blow.

Wales' victory was more noteworthy considering England had almost played one game, having drawn with Scotland two weeks ago, whereas it was the first international of the season for Wales.

In addition, Gunner was more or less an unknown factor because five weeks ago a cartilage contusion of the knee in his face had he was so seriously injured that it was feared he would be unable to play again this season.

Cleveland Player Fractures Skull
CLEVELAND, Oct. 26.—(AP)—The Cleveland Indians' defense star, pitcher, and outfielder, Hal N�, fractured his skull in a game against the Chicago Cubs.

N� was hit in the head by a line drive from the Cubs' outfielder, Al Simmons, during the fourth inning of the game.

N� was taken to the hospital and is expected to be out of the game for several weeks.

The Indians' manager, Ben Chapman, said that N�'s injury was a serious one and that the team would have to adjust to playing without him.

The Indians' next game is scheduled for next Saturday against the St. Louis Cardinals.

R.C.A.F. JUNIORS TAKE LEAD IN PLAYOFFS

"3" Depot Banks Calgary Cadets 10-0 Engineers Cop Grid Title

Aggies Beaten 17-1 in Final Inter-Fac Game

Aggies Beaten 17-1 in Final Inter-Fac Game

The Engineers captured the championship of the University of Alberta Inter-Faculty Football League when they knocked the Aggies under 17-1, in a sudden death playoff final grid on Sunday.

The farmers, undefeated during the league schedule, were away below their usual form but even if they had been hitting their stride it is doubtful if they would have won. The Engineers were in great trim and their fleet backfielders were given some excellent support from a bruising, hard hitting wing line.

The winners started impressively and soon had the play in their own half. The Alberta Inter-Faculty Football League was under 17-1, in a sudden death playoff final grid on Sunday.

The winners started impressively and soon had the play in their own half. The Alberta Inter-Faculty Football League was under 17-1, in a sudden death playoff final grid on Sunday.

The farmers, undefeated during the league schedule, were away below their usual form but even if they had been hitting their stride it is doubtful if they would have won. The Engineers were in great trim and their fleet backfielders were given some excellent support from a bruising, hard hitting wing line.

Collision or Collusion?

The Edmonton team, paced in the backfield by Dutchak, Klecko and other white stars, gave a pretty display of kicking, took the offensive in the first quarter but failed to score until the second session. Then they opened with a safety touch, scored an unconverted touchdown to make the count 7-0, and held the margin until the close of the game when a new field goal boosted the total 10 points.

Dutchak got credit for the safety touch by leading a swarm of players who knocked Calgary's Verne Graham back over the goal line following a 40-yard run. Horton drove through centre behind some great blocking, and then he got the touchdown and Blue cleared his line punting performance by booting the field goal from placement after his backfield mates had plunged the ball to the Calgary five and strip.

Edmonton hit no line in the entire game brought the team 13 first downs in 60 minutes. Play centred around the 35-yard strip right after the kickoff but the attacking force of Dutchak, Rebo and Horton moved the ball into Calgary territory before the first quarter was finished.

A kick by Don Blue a few minutes after the change of ends put Calgary back on its own ninety-yard mark and also set the stage for the first Edmonton tally. On the first Calgary down Stevens picked up five yards. The locals then lost a down for delaying play and the attempted kick backfired into an Edmonton safety touch. Graham kept his hands to his head, fumbled, fumbled briefly and recovered but went down on the wrong side of the goal line as a swarm of Edmonton players hit him hard and pushed him back.

A few minutes later Edmonton succeeded the drive that produced the game's major score. Horton dashed 13 yards to the Calgary seven-yard line. Dutchak made successive plunges of three yards each to put the ball a yard from the goal line and Horton finished things off by diving through.

The league-leader R.C.A.F. Hurricanes and the third-place Toronto Navy entry, from H.M.C.B. York were idle, having played to a 7-7 tie in a mid-week clash.

Wildcats obtained their lone touchdown in the first quarter on a 40-yard run from Joe Kool to Jim Fumie. The team committed a total of 11 fumbles.

In the only other game on Saturday's card, Toronto Oakwood Indians, scored their second triumph over the talented Chicago River-Waterloo Panthers, 9-0, to maintain their hold on fifth spot, a game held wildcats.

OTTAWA RIDERS TRIM CIVIL SERVICE 43-0
OTTAWA, Oct. 26.—(CP)—A badly-outplayed civil service team Saturday took a 43-0 drubbing from Ottawa Rough Riders, last year's eastern Canadian champions, in the third game of the Ottawa Senior Football League schedule.

Airmen Too Powerful for South Champs

CALGARY, Oct. 26.—(CP)—Edmonton's R.C.A.F. Manning team was hasty to book a bunch of players as has ever gone into junior football finals in this province, established themselves hot favorites to win the 1942 Alberta championship here Saturday afternoon by rulling up a 10-0 score against Calgary Army Cadets in the first game of a total-point, two-game playoff.

Second game is scheduled for Saturday afternoon at 2 p.m. at the same place.

A safety touch, a touchdown and a field goal gave Edmonton its 10 points in a game that saw the northerners dominate the play with Calgary showing only occasional flashes of ill-fortune.

A crowd of approximately 2,000 fans saw the contest which was played under weather conditions ideal for the redders but uncomfortable for the visitors who shivered from a wintry breeze that swept the Mewata stadium field.

The Edmonton team, paced in the backfield by Dutchak, Klecko and other white stars, gave a pretty display of kicking, took the offensive in the first quarter but failed to score until the second session. Then they opened with a safety touch, scored an unconverted touchdown to make the count 7-0, and held the margin until the close of the game when a new field goal boosted the total 10 points.

Dutchak got credit for the safety touch by leading a swarm of players who knocked Calgary's Verne Graham back over the goal line following a 40-yard run. New Agreement Between C.A.H.A. and Pros on Way

WINNIPEG, Oct. 26.—(CP)—Frank S

Believe It Or Not—

—By Robt. Ripley

Senior League Proposed

Manitoba Amateur Hockey

Body to Continue Operations

E. A. Figg Heads

Alberta Avenue

Lawn Bowlers

E. A. Figg was elected president of the Alberta Avenue Bowling Club at the annual general meeting held in the club rooms on Friday evening. He succeeds W. Ruff who served in that capacity for the past year.

During the course of the meeting reports from the various committees along with those from the auditors were heard and they showed a very favorable condition. Plans were completed for a social evening to be held on Tuesday, October 27, at 8 p.m. in the community hall. At this gathering, the presentation of prizes to the club members and their wives are asked to attend.

Following is the list of officers elected: President, E. A. Figg; Past President, W. Ruff; Vice President, T. Crockett; Secretary, Treasurer, A. C. Hopwood; Games Chairman, W. H. Gove; Social Chairman, F. Arnold; Grievance Committee, J. Colville; Umpire, J. Brown; Auditors, T. Crockett and R. Sneddon. T. Owen, L. White and A. Muir are also added to the executive. J. Henderson will serve as delegate to the City Association and other delegates will be appointed at a later date.

Canadians Beat

Washington 7-3

For Five in Row

SHAWINIGAN FALLS, Que., Oct. 26.—(CP)—

Montreal Canadiens defeated the National Hockey League pumpled five goals in the last game of an exhibition hockey game Sunday to defeat Washington Lions of the American League 7-3 before 5,000 fans.

The Canadians, who set back an Army all-star team 4-2 in Montreal Saturday night, scored the goals after trailing for the first two periods. Gordie Drillon, who came to Canadiens recently from the Toronto Leafs, fired two of the goals during the rally and Butch Bouchard, Tony Denner and Hookie Maurice Richard accounted for the others.

ARMY ALL-STARS LOSE TO HABITANTS

MONTREAL, Oct. 26.—(CP)—Montreal Canadiens defeated the Army All-Stars 4-2 Saturday night, to remain unbeaten in four exhibition games held during the training period for the National Hockey League season. Canadiens set a new pace throughout the game with the Army squad trying desperately to keep even with the flying Frenchmen.

The Canadians forward line of Ray Gelliflin, Ivonick and Benoit paced the game and accounted for two of the Habitant goals.

Cunningham Big

Show in Barons'

Defeat of Wings

CLEVELAND, Oct. 26.—(AP)—Cleveland Barons of the American hockey league smashed a 4-2 victory from the Detroit Red Wings of the National league in an exhibition game Saturday night, breaking a tie in a rough battle.

Cunningham scored three of the Cleveland goals. Dick Adolph of the Barons was injured in a melee with Alvie Molten in the third period after being carried from the ice, and in the ensuing roughness players from both teams were sent into the penalty box. Cunningham accounted for Cleveland's margin, getting both of the Barons' third-period goals. Cleveland scored early in each of the first two periods, only to have the count tied up by Detroit shots.

Tranquil Star

Best in Australia

MELBOURNE, Oct. 26.—(AAP)—Tranquil Star, regarded as the best mare now racing in the Australian turf, Saturday won the Caulfield cup by beating Heart's Desire, with El Golea 15 lengths away in third place. In the betting Tranquil Star was favored at 1 to 1 and Heart's Desire 25 to 1.

Coast Summer

Awarded Trophy

TORONTO, Oct. 26.—(CP)—Joan Langdon of Vancouver, considered one of Canada's finest competitive swimmers, was crowned champion by the Women's Amateur Athletic Federation of Canada yesterday for the Mary McManister Memorial Trophy awarded annually to the dominion's outstanding athlete.

and Dunc Grant from Calgary, were runners-up. Andy Chakowski, a scoring sensation with Baltimore Orioles last year, will possibly play this season, formerly with Detroit Red Wings.

THE BATTLE OF THE HAILSTONES

ANSWER TO LAST WEEK'S QUESTION

THE LORD CAST DOWN GREAT STONES FROM HEAVEN UPON THEM UNTO AZEKAH, AND THEY DIED: THEY WERE MORE WHICH DIED WITH HAILSTONES THAN THEY WHICH THE CHILDREN OF ISRAEL SLEW WITH THE SWORD

COUNT MAURICE-AUGUSTIN BENJOWSKI
HUNGARIAN SOLDIER OF FORTUNE
WAS ELECTED KING OF MADAGASCAR IN 1774
—THEN SOLD THE ENTIRE ISLAND TO AN AMERICAN BUSINESS FIRM IN BALTIMORE
HOWEVER, THE COUNT WAS KILLED BEFORE HE COULD TURN THE ISLAND OVER TO THE AMERICANS

EXPLANATION OF TODAY'S CARTOON

MADAGASCAR ONCE SOLD TO AN AMERICAN BUSINESS FIRM—Count Maurice-Augustin-Aladar Benjowski (1741-86), Slovak-Hungarian-Austrian-Polish adventurer and soldier of fortune, was elected Majaka-Re (King in Chief) of Madagascar in 1774. He tried to sell the island to France, but the King of France spurned his offer. He then applied to take the Kingdom to England, but England was not interested. He finally went to Baltimore, Maryland, to sell Madagascar to an American business firm. The deal was concluded, and when Benjowski returned to Madagascar to turn it over to the Americans, he was killed by a French patrol.

Notre Dame Stops Illinois

Four Unbeaten Teams Fall; Ohio State Still Tops List

NEW YORK, Oct. 26.—(AP)—Illinois, North Carolina, Washington and Brown fell off the undefeated list Saturday as Ohio State's Buckeyes, No. 1 ranking team in the United States College football, continued their victorious sweep along with most of the other leading gridiron favorites.

Illinois, after hanging up four successive triumphs, lost to Notre Dame which came from behind twice to earn a 21-14 decision before a crowd of 42,000. Geared for Angelo Bertelli's passes, Illinois was soundly beaten by California's three-beaten Bears, 19-6.

There was no stopping Ohio State. The Buckeyes, led by Paul Sarnghausen and Gene Fekete, trounced Northwestern 26-0 to gain undisputed possession of first place in the Big Ten. Michigan was upset 16-14 by Minnesota's revving Gophers, in a bitter duel fought before 5,000.

Roundout of a brilliant program in the Midwest, Iowa's Hawkeyes tripped Indiana 14-7. Wisconsin maintained its undefeated status in a 12-0 conquest of Purdue and Michigan State chalked up an upset triumph over Great Lakes, 14-0.

COLLEGE RESULTS
East: 14, Harvard 6; Bucknell 13; Boston University 7; George Tech 21; Buffalo 6; Duke 28; Pittsburgh 6; Georgia Tech 21; Navy 6; Holy Cross 26; North Carolina 14-0.

"It's a patriotic idea—we're wearing shorts and go stock-huge to work, but we're losing 10,000 man hours a week from the MEN."

CAN ADIAN SPORTSHOTS

TORONTO, Oct. 26.—(CP)—

Perfect functioning of each individual player on a team is probably more important in Rugby football than in any other game. The ball-carrier usually receives the applause of spectators but the linemen, the scrummers, the blocking backs, the long runs and yard-gaining line smashes provide the backbone.

Fraz (Peterborough Examiner)

Craig has a word for these unsung heroes with the complaint that existing football scoring records utterly fail to give an accurate picture of scoring plays. This was borne out by the navy air force game in Toronto Wednesday night.

"Back of the contending teams registered a touchdown by the forward pass methods for five of the seven points scored by each club but the scoring summary contained only the name of the receiver who was credited with five points while two gay in each case were fired the touchdown pass not exactly noting for his contribution."

The forward passers played their parts perfectly but the passers would have been smothered without blocking protection; they would have found no uncovered receiver if other potential receivers had not feinted the pass defence out of position. It would be impossible to describe each individual contribution to a successful football play but sports writers must mention point scorers because they are of primary interest to the average fan.

Incidentally:

Timothy Herman, former Ottawa Rough Riders football star, returned home on leave after 18 months active service aboard one of the Royal Canadian Navy's cassettes. "There's nothing like it," he said of his navy experience. "It keeps you busy but I wouldn't trade it for the world."

Spectator attendance at Winnipeg high school football league season is reported better even than last year when the league drew more than 80,000 during the season. In Vancouver, home of several Dominion basketball championships, prospects for the current five-team league will be up to standard with many of the name players of other years again in action.

Puck Patter: George Mantha, coach of Washington Lions in the American Hockey League, is high on the girl others in the Washington Ice Palace. "All redheads, dressed in green, with capes and high hats," he said.

Tammy Anderson, former Brooklyn Americans defence star now playing coach of the Calgary army team in the Alberta Services Senior Hockey League, figures to have a good club, including Doug Lane, Whitely Irwin, Don Kelly and Ken Stewart, all formerly with Lebridge Maple Leafs; Tony Desmarais

Daily War Map—Exclusively in The Edmonton Bulletin

Winter War Zones—Some of the main theatres of winter warfare are circled on map. Tour of French Africa by Admiral Jean Darlan, with hints originating in Berne that Vichy might transfer its base of operations to Africa, together with an increased flow of Allied armed forces and supplies into Central Africa as well as into the Suez theatre, indicates the possibility of imminent new fighting on that continent. Boxed captions on map suggest other shifts to battlegrounds in more temperate zones.

The War Today

By JOHN COLLINGWOOD READE

Vichy vs. United Nations Issue Now Clearly Drawn

The issue has been drawn between the United Nations and the Vichy government. Admiral Darlan has hastened to Dakar to stand before a microphone and assure the French people in that gay city of night clubs that a new danger hangs over them. The admiral said that France would spare nothing in the defense of Dakar. This is an entirely reasonable statement, because France has nothing to spare. The Germans have got it all.

The Nazi-Fascist revolution in Central Europe has brought a number of people to their senses. It is like a bolt that suddenly reminds its possessor that cakes and custard, no matter how palatable, cannot be indulged in to excess without unpleasant consequences. There was a time, not so long since, when the great industrialists of France were in sympathy with Hitler Thysens, and believed that the proper course for them to follow was to support the Nazis and Fascists, under the illusion that such men, whom they deigned could nevertheless be used as tools to undermine the forces which appeared to threaten their tenure of power and privilege. It was a case of pliable Fascists or inexorable Communists.

THREE KNOWN BY FRUITS

The day is at hand when men of all political stripes and interests must recognize that the philosophy which argues that the ends can justify the means is false. Never in history has it been possible to use a bad man to serve a good cause without the cause itself being betrayed. Those who associate with opportunists, men of little faith and no principles, will find that they themselves will be similarly corrupted or eventually betrayed.

It matters not whether a man

is sincerely believes that individual enterprise and freedom to exploit opportunity within the limits of the law are the foundations of sound human society, or whether he believes that the States should be supreme, with the individual as its servant. If either of these to achieve their ends resort to violence, perjury, the perversion of justice or come to rely upon demagogues to serve their ends, they will themselves be confounded. For, if there is one thing that is eternally true, it is that a tree shall be known by its fruits, and that you can never make a silk purse out of a sow's ear.

There have been honorable men who were living according to their lights in England and Sweden and in France. But, because they ignored this essential truth, they and lesser men all over the world, have supported policies which brought the world to ruin. The world was

not plunged into this maelstrom of disaster by evil men who deliberately sought to exploit their neighbors, betray their friends, suppress their colleagues and win through to the seats of power. The harm was done by well-meaning men who thought that what they believed was veritably true, and that all else was perennially false.

GOOD MEN MISTAKEN What they believed was that which minister most surely to their comfort and security, but they seldom recognized this fact. Yet, believing it, they were sure that any means of bringing it to pass would be justified. This is the day of revelation. Now it is clear that all the rotten bargains, all the marriages of convenience, all the cynical, "realistic" relations into which men entered and which were countenanced by the pundits of the day, were false and evil. No good ever came from bad practices, even though those bad practices were sanctioned by purity or sincerity of motive.

In his ivory tower, the pious Pelain, Marshal of France, here of Verdun and friend of those who are by definition especially intimate with God, is reflecting upon these matters with honor. He sought to spare a million lives by confessing the sins of France. He asked for time in which to regenerate a nation. He was prepared to go through purgatory to reach eternal bliss.

Today he knows that confession is no substitute for repentance. The Russians are holding the line, and their ally, winter, is gradually creeping up to bring them assistance. Field Marshal Smuts said on Wednesday, "The German armies are bleeding to death on the Russian fronts." Each of the other United Nations is holding its particular front and doing his appointed task. The Australians are pushing on toward Kachia, despite Japanese counter-attacks. The Americans are answering blow with blow in the Solomons. The Chinese are battling to hold their gains and praying for more weapons. The British are attacking from the air and slowly weakening the German economic empire in Europe and frustrating the Axis efforts to mass overwhelming strength in North Africa.

But this is the negative side of the war. Each of the United Nations has contributed his brick to the wall which is containing the surging tides of aggression. We stand on the threshold of a new period. Field Marshal Smuts was indulging in no mere rhetoric when he spoke of the approaching Allied offensive. It is not enough to keep the enemy from winning; it is necessary to win ourselves.

MAKING VISE FOR ROMMEL

The process of softening up the enemy is one with which superior forces occupy themselves while waiting for the attack. British and American air strength has been busy both in Europe and in Africa with the patient, interminable task of attacking supply lines, destroying railways and equipment, sinking ships, dispersing concentrations of troops and vehicles and sending supply dumps into the air.

But these processes only tax the ingenuity of the enemy to discover other ways of supporting himself and maintaining his supply lines. These operations are shopworn to keep the enemy from getting stronger while we mobilize our own strength. It is rumored that a force larger than the British Eighth Army, composed of Americans and Fighting French is now assembling in the area around Lake Chad. That force has a more important mission than the capture of Dakar, where Axis submarines may be hidden although the French have been landed at Gambia, Sierra Leone, the Gold Coast, Liberia, Nigeria, the Cameroons, French Equatorial Africa and the Belgian Congo are now coagulating to become one great force which will threaten the existence of Axis power in North Africa.

The accompanying map shows where Allied forces are congregating, according to French despatches, and illustrates the manner in which they can be employed to destroy the means by which Rommel's army is supplied. The new offensive of the Eighth Army, under General Sir Harold Alexander, can be cranked between the jaws of a vice that close in upon him from both the east and the west.

that he who sins must pay the price, or fight for vindication. The whole future of civilization now revolves around France and the territories dominated by France. The proprietors of the Michelin Rubber Works have turned against the Vichy government and denied its spokesmen access to the factory. The management refuses to be accessory to the betrayal of French workmen. They may have become regenerate, but it is more likely that they have discovered that the interests of all mankind are identical. It takes a catalyst, followed by untold suffering, to bring men together and teach them to co-operate instead of competing.

ENTERING NEW PERIOD

The Russians are holding the line, and their ally, winter, is gradually creeping up to bring them assistance. Field Marshal Smuts said on Wednesday, "The German armies are bleeding to death on the Russian fronts." Each of the other United Nations is holding its particular front and doing his appointed task. The Australians are pushing on toward Kachia, despite Japanese counter-attacks. The Americans are answering blow with blow in the Solomons. The Chinese are battling to hold their gains and praying for more weapons. The British are attacking from the air and slowly weakening the German economic empire in Europe and frustrating the Axis efforts to mass overwhelming strength in North Africa.

But this is the negative side of the war. Each of the United Nations has contributed his brick to the wall which is containing the surging tides of aggression. We stand on the threshold of a new period. Field Marshal Smuts was indulging in no mere rhetoric when he spoke of the approaching Allied offensive. It is not enough to keep the enemy from winning; it is necessary to win ourselves.

MAKING VISE FOR ROMMEL

The process of softening up the enemy is one with which superior forces occupy themselves while waiting for the attack. British and American air strength has been busy both in Europe and in Africa with the patient, interminable task of attacking supply lines, destroying railways and equipment, sinking ships, dispersing concentrations of troops and vehicles and sending supply dumps into the air.

other besieged Russian areas, Chair, The Red Cross also is shipping 500 man Norman H. Davis of the American Red Cross announced Saturday, for Russian children, he said.

1,400 Serbs Are Slain in Croat State

LONDON, Oct. 26.—(CPI)—More than 1,400 Serbs, including women and children, were shot to death in a new wave of terror in the Axis-created Croat state, the Yugoslav government in London reported. The executions, Yugoslav sources said, were aimed at "re-orienting the Serbs" occurred in the province of Srem at the hands of Ustashi—the brown-uniformed Fascist police of the Italian puppet dictator, Ante Pavelic—and the Germans.

The list of executions announced by the Yugoslav government included: More than 1,000 Serbs including women and children forcibly taken from Vukovar in September and shot after a summary trial. Eighty Serbs in Zemun, opposite Belgrade, killed Aug. 26 and 27; 27 in Vukovar, 16 in Srem and Karlovci and 40 in Jarmina killed Aug. 14 in reprisal for the deaths of four German soldiers.

80 SCHOOLBOYS SLAIN Sixty-six in Jarmina shot Aug. 24 and 80 schoolboys, most of them from Srem.

The government said 600 men, mostly the wealthy landowners of the Slavonia district in Orasje in Serbia were taken to Belgrade as hostages Sept. 26.

An order issued by the commander of the Ustashi, the puppet Croat police force, said 10,000 Serbs were to be shot in Srem province, the government announcement said.

U.S. Living Costs Up 20 Per Cent. WASHINGTON, Oct. 26.—(AP)—Living costs for city workers in the United States advanced approximately 20 per cent between August, 1939, when war started in Europe, and Oct. 2, when President Roosevelt froze living costs, Labor Secretary Frances Perkins reported Saturday.

This compared with an increase of 30 per cent in the same period of the last war, he said.

Variety, Abundance Food Are "Miricle" to Officer Returned from Britain

Food in variety and abundance in the grocery stores of Canada is a miracle in tangible form to a Canadian who has served nearly three years in stiffly-rationed Britain.

Occupies Chair

Capt. G. H. Holmes, 10232 81st St., quarter-master officer of the 4th Casualty Clearing Station overseas, and former store-keeper at the University of Alberta, described his feelings in this respect in an interview Monday after his return from England. He has been involved home as a result of a severe illness last spring.

"I spent two hours in Montreal just touring through the greeter's looking at foods which I had long since forgotten," Capt. Holmes said. "Not that there is insufficient food for everyone in Britain, but the range of variety is so limited that scenes in Canadian stores are hard to believe at first."

Another miracle of Canadian life is the absence of blackouts.

"It gave me a thrill last night just to sit by a window and observe objects most about outside," he said.

A VETERAN
 Capt. Holmes left Edmonton on Oct. 21, 1940. He is a veteran of the First Great War, having served with the 25th Bn. C.E.F. of Nova Scotia in the 5th Brigade, 2nd Canadian Division.

His unit located just a few miles south of London, the officer experienced the repeated blitz attacks of the Battle of Britain during the summer of 1940 and through the end of early spring of 1940 and 1941.

We were right on the edge of the London barrage so we really heard plenty of noise," he said. Although nervous young Nid pilots dropped many bombs and land mines right near the unit's quarters, all personnel miraculously escaped. On one occasion the camp was machine-gunned. The unit's only fatal casualty was Col. Pelletier, killed in a blackout road accident.

Capt. Pelletier was from the Edmonton district.

Although his unit was "stand by" orders to receive wounded from the Dieppe operation.

City Utilities Reveal Profit Of \$766,952

The city-owned utilities poured \$766,952 into the city's treasury in 1941 and profit during the nine month period ending September 30, or the equivalent of 12.7 mills at the current rate. It was disclosed in a statement prepared by City Commissioner A. Campbell for submission to the city council.

Gross revenue for the 1942-ninth month period was \$4,083,827.17 compared with \$3,717,717.70 last year, an increase of \$366,109.47. Gross expenditures for the 1942 period were \$3,316,875.08, compared with \$2,550,765.32 for the same period last year, an increase of \$766,109.76.

Getting Around

Jack DeLong

Northerners Appreciative Of Good Music

Northern audiences are just as sincere and appreciative as those in the south, but they are harder to reach in that they must be reached in both nations should have a thorough re-examination of the entire matter of censorship. As we are of the opinion that the first thing that should be done by Canadian authorities is to get in touch with the U.S. and let them know that we are in the same boat.

In other words we are of the view that one joint board, with branches in both nations should handle the all-important matters of censorship. There is something in this idea that there can be no real censorship of what happened last week.

Canadian Women Draw Warm Praise

Canadian women are doing a magnificent job in the nation's war industry, and are rapidly taking their place beside men in practically all types of work. Maj. L. L. Anshel, Toronto, Ontario, Anshel Foundry Ltd., stated on his arrival here Monday in the course of his annual visit to western Canada.

Garage Contents Destroyed by Fire

The interior and contents of a garage that was being converted into a home, was gutted by fire Sunday.

Probe Committee To Meet Nov. 2nd

Originally scheduled to meet Monday, the special committee of the legislature examining operations of the Alberta Workmen's Compensation (Accident) Act has postponed its sessions until Nov. 2.

Milliet is Planning Victory Concert

Moving picture (the London) bills, special speakers, and a community dance will be features of the Victory Loan rally and concert planned by the city.

W. Murdoch, Plumber: I'm Not

Doing the lines of censorship but something will have to be done to prevent such a thing happening again.

JACK PENNER, city manager:

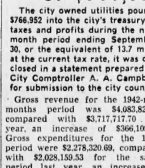

has always favored joint action between Canada and the United States on all matters pertaining to the prosecution of the war. I think such a board should be established without any delay.

Dr. Robinson, who is now in

Edmonton, reports Monday that he has been in California for the last two weeks, visiting his wife. F.O. Wilson is stationed at Ottawa.

I Saw Today

Officers Differ At Vegreville

Correction of a statement reported to have been made last week by the chairman of the Vegreville school division board, was issued Monday by James McRea, president of the Vegreville local of the Alberta Teachers' Association.

Mr. McRea said that certain statements reportedly made by P. P. Smith, chairman of the Vegreville board, "do not fully represent the facts surrounding the situation as it has developed and now exists in Vegreville."

Mr. McRea declared that the Vegreville board is not paying the teachers a salary that has resulted in an increase of one mill rate over last year's rate, as Mr. Smith is reported to have stated.

THE DIFFERENCE

He said that even if the board accepted the findings of the board of arbitration, the increase would be only one and one-half mills over last year's rate.

THE TEACHER

"Having regard to the fact that a dollar today does not buy as many goods and services as it did a year ago, the division was first established, and having regard to the fact that the teacher's salary has increased proportionately in agricultural regions, I must submit that an increase of one and one-half mills is reasonable," Mr. McRea stated.

THE TEACHER

The teacher payroll last year amounted to \$66,802 while the total paid to the teachers was, according to the board's present scale is \$67,000.

THE TEACHER

If the division accepted the award of the board of arbitration the total paid to the teachers would be \$67,000, an increase of \$197.78 over last year's rate.

THE TEACHER

Mr. Austin is reported to have stated that the present scale of salaries has created an increase of \$197.78 over last year's rate.

THE TEACHER

A second theft of microphones from School Side church was reported to city police Sunday, from McDonald Baptist church, 194 street and 34 avenue.

THE TEACHER

Last mid-week two microphones were reported stolen from the pulpit of the Knox United church. Stolen from the Baptist church from McDonald Baptist church, 194 street and 34 avenue.

THE TEACHER

The caretaker of the church reported the loss after finding that the microphones were missing from the pulpit.

THE TEACHER

The microphones stolen from the Knox church were left on the pulpit and were not reported until 7 p.m. Sunday. One was partly damaged.

THE TEACHER

Police are investigating the case and believe that the same group of juveniles is responsible for both thefts.

THE TEACHER

First Aid School: Tuesday and Thursday, 10:45 hours; Saturday, 10:45 hours. First Aid School: Tuesday and Thursday, 10:45 hours; Saturday, 10:45 hours.

Mock Paratroop Attack

Are "Miracle" to Officer Men of Reserve Army

Enemy paratroops were repulsed and air raid destruction controlled during the ninety-minute alert held Sunday afternoon in Edmonton. Fires were extinguished, medical aid rushed to casualties, and stretcher cases cleared by demolition squads, all working rapidly and efficiently through a central communications centre.

Within a few minutes after enemy troops were reported landing from planes on the municipal golf course, civilian police, A.R.P. watchers, and military troops had raced through the thoroughfares and opened an attack.

Objectives of the enemy were the power plant and high level bridge but they did not gain their objectives.

THE TEACHER

Only a short time later, operations had been reduced to "mopping up." Smoke hung over the valley, and occasional bursts of gunfire revealed snipers still at work.

When Hudson's Bay company store was set afire by incendiary bombs, help arrived at the scene twelve minutes later and the situation was soon under control.

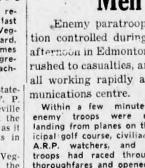

Working swiftly, demolition crews erected barricades where trucks from the water, gas and telephone companies were seen.

INDIAN SOLDIERS SHOWN AT CAMP BORDEN

Canada's Redmen Develop Into Crack Infantrymen

Camouflage replaces feathers in the headdress of Gilbert McCallum. Where his ancestors would have gone into battle wearing waving plumes, David has learned a decoration of foliage makes for better concealment.

"Pretend I'm a Nazi," joked the cameraman when the "charge with fixed bayonets" order was given. He snapped this picture and hastily scrambled out of range, assuring the Indians earnestly that he was "only kidding."

Sign language and woodland lore is known to all Indians. On scouting duty, where silent movement is necessary, it is a valuable addition to the Indian fighters' equipment which is not found in the army manual.

The Light Fantastic

Daughter of the Brodells—with all the Irish abandon that is in the blood of her, trips the light fantastic in a scene from "Warriors" "The Hard Way" in which she is starred with Ida Lupino, Dennis Morgan and Jack Carson. She is known to moviegoers as Joan Leslie.

New Minister Second Massachusetts Man in Cabinet

Sworn in as minister of public works, Alphonse Fournier, shown here with his family, is the second Massachusetts-born man to enter the Dominion cabinet. The other is Hon. C. D. Howe, minister of munitions and supply. The new minister was born at Methuen, Mass. His parents, French-speaking Canadians who had settled in the U.S. for a few years, came back to Canada when Alphonse was 11. After graduating from Laval Normal school he taught school in Montreal, was a school inspector for some years and then studied law. Left to right: Roy, 21, provisional sub-lieutenant with the R.C.N.V.R.; Raymond, 24; Louis, 8; Mr. and Mrs. Fournier and Robert, 16.

Awarded King's Medal

The King's Medal has been awarded to Midshipman William Alexander Scott Murray, R.N., a boy from Canada, recognized as the most brilliant cadet to graduate from the Royal Naval College, Dartmouth, England, this year. Midshipman Murray received the prized gold medal, premier Naval Educational award of the British Empire, on obtaining highest place in the grand aggregate of marks in the passing out examination at the College. He is the first Canadian to receive such recognition. Midshipman Murray, who is now serving in a cruiser of the Royal Navy, is shown above with his father, Rear Admiral L. W. Murray, Commanding Officer Atlantic Coast, and until recently Flag Officer Newfoundland Force.

16 Persons Die In East Crash

MONTREAL, Oct. 26.—(C.P.)—Sixteen persons were killed this morning in the flaming, twisted wreckage of a giant Ventura aircraft which exploded after plunging to earth on a farm in the north-west district of Montreal Island. The crew of two and 14 others, believed to include R.C.A.F. personnel and contractors' employees, died in the crash of the aircraft, it was announced officially by the Royal Air Force Ferry Command which operated it.

The crash came at 8:20 a.m. M.D.T. as the plane—a "local" used for trips to Labrador—was flying 25 miles from the Montreal airport at Dorval.

The official announcement, reporting that all died "instantaneously," said the names of the crew and passengers would be made public as soon as next-of-kin were notified.

Ex-Greek Diplomat Passes in London

LONDON, Oct. 26.—(C.P.)—Charalambos Simopoulos, 68, Greek ex-ambassador in London, died Saturday after a brief illness. Simopoulos had represented Greece in this country for eight years as minister, and for the last five months as ambassador. For 10 years he was Greek minister to Washington.

Former Internees To Contest Seats

WINNIPEG, Oct. 26.—(C.P.)—Three Winnipeg men—former Alderman Jacob Penner, John Navonovsky and Mitchell Sagan—recently released from an internment camp were unanimously nominated yesterday by the Workers' Election Committee to contest the civic elections. Penner and Navonovsky will be aldermanic candidates in Ward Three, and Sagan a school board nominee.

Girl Hitchhiker is Killed When Auto Burns After Crash

NEW WESTMINSTER, B.C., Oct. 26.—(C.P.)—One of two teen-aged girl hitchhikers who accepted a lift in an automobile Saturday night was killed along with a Kelowna man when the machine careened from the Pacific highway south of here, rolled over and burst into flames.

Trapped in the burning wreck were Gloria Robertson, 15, of Vancouver, and Cecil LeBlond of Kelowna, B.C. The other girl hitchhiker, Gwen Burnett, 16, escaped with bruises and shock. Three other men in the car were injured, none seriously.

Soviets Smash Enemy Landing On North Isle

MOSCOW, Oct. 26.—(AP)—Sixteen enemy motor boats and 15 planes, shot down in a furious seven-hour air, land and sea fight in the midst of rain squalls and snow flurries when a landing attempt was made three days ago on a small Soviet island in Lake Ladoga, northwest of Leningrad. Russian dispatches reported yesterday.

"Part of the enemy force which succeeded in reaching shore was hurled into the water and annihilated," said one account in Pravda.

Condition of King Christian Worse

ROME, From Italian Broad-cast: Oct. 26.—(AP)—A Copenhagen dispatch broadcast today said the condition of King Christian of Denmark had become suddenly worse following an attack of the flu. The king, 72, was injured Oct. 19 when thrown by his horse.

London Has Two Air Raid Alerts

LONDON, Oct. 26.—(C.P.)—London's anti-aircraft guns blared into the clouds today when a plane which could not be seen from the ground flew high over the outskirts of the city during the first of two morning alerts.

The air minister said two enemy bombers were shot down during raids over Britain today.

Bombs were dropped near a village in southwest England and some damage was caused.

A DNB broadcast from Germany asserted Torquay harbor, on the southwest coast, was bombed yesterday and that several warehouses collapsed and a factory was heavily damaged.

Senate Provides Year's Drill For 'Teen Age Class'

WASHINGTON, Oct. 26.—(AP)—The United States Senate, overriding President Roosevelt, amended the "Teenage Draft Bill" Saturday to provide that no inducted man under 30 shall be placed in combat duty outside the continental United States without at least one year's military training.

By its action, the Senate disregarded a letter from Mr. Roosevelt declaring it was "important that limitations other than those now included in the bill be avoided."

Sponsored by Senator W. Lee O'Daniel (Tex.), the amendment was adopted 39 to 31.

"Hide" Genoa

LONDON, Oct. 26.—(C.P.)—The Italians tried to hide Genoa from British raiders Friday night by throwing a smoke screen along the coast, but as fast as the generators spread out the smoke the wind blew it out to sea, a participating pilot reported yesterday.

Mrs. F.D.R. Hears First Air Alarm In Great Britain

LONDON, Oct. 26.—(C.P.)—Mrs. Franklin D. Roosevelt heard her first British air raid alert today while addressing a group of girls at the Home Counties Auxiliary Territorial Service Training Centre. Obviously unperturbed, she continued talking. The girls cheered when she had finished.

Earlier she visited an A.T.S. base at a Home Counties airport and talked to a group of 22 American girls who are ferry pilots.

The alert today was the first in London since Mrs. Roosevelt has been in Britain.

Britain Warned To Prepare For Big Gas Attack

LONDON, Oct. 26.—(C.P.)—The eminent British scientist, J. B. S. Haldane, warned yesterday that Britain probably will be subjected to a big gas attack from Hitler, when a second front is opened.

Sneaking to a civil defence workers conference, he said the attack may be "against London, Birmingham or some other large city."

He possibly against invasion ports when the second front is opened.

"Doubtless Hitler has large reserves of poison gas," Haldane said. "The presumably will use them and the most probable target is Britain."

Vancouver Flier Killed in Crash

PRINCE ALBERT, Sask., Oct. 26.—(C.P.)—Officials of No. 3 Elementary Flying Training School, R.C.A.F., here, announced today that LAC L. R. A. Burns, 26, of Vancouver, was killed yesterday when his plane was flying collision in mid-air with another machine and crashed about 11 miles northeast of the school.

3 Canuck Fliers Win Decorations

LONDON, Oct. 26.—(C.P.)—Three members of the R.C.A.F. piloting fighter planes in defence of Malta were among airmen for whom immediate awards were announced today. They were Ptl. Lt. H. W. McLeod of Regina, who received the D.F.C., and Ptl. Sgt. I. R. Macdonald, who received the D.F.M.

Western Publisher On Welles' Program

TORONTO, Oct. 26.—(C.P.)—S. J. Dolman, veteran Saskatchewan weekly newspaper publisher, travelled 1,200 miles to take part with Orson Welles in a half-hour Victory Loan program broadcast over the national network of the CBC last night.

The program, one of a series entitled "Nazi Eyes On Canada," pictured Canada in 1948 by Nazi invasion, with "Sam Dolman" continuing to publish his Alameda Dispatch after the southern Saskatchewan prairie had been overrun by Nazis.

Aide of Quisling Dies in Car Crash

LONDON, Oct. 26.—(C.P.)—Reuters News Agency reported today that a German broadcast said Dr. Guldbrand Lund, Quisling's Norwegian minister of propaganda, and his wife were killed in an automobile accident in central Norway.

Fighters Collide

NEW YORK, Oct. 26.—(AP)—Two army fighter planes collided over the Atlantic ocean off Long Island yesterday and plunged into the water, killing both pilots.

Canuck Fighters Guarded Bombers On Milan Attack

LONDON, Oct. 26.—(C.P.)—The Royal Canadian Air Force announced yesterday that Canadian fighters formed part of the escort which shielded R.A.F. bomber squadrons crossing France to bomb Milan in northern Italy Saturday.

The Canadian air headquarters issued two communiques giving details of R.C.A.F. action in the last two days, the second of which disclosed that Canadian fighters had taken part in actions against railway trains in occupied France, making a number of trains at Rembouillet and Belleville and near Paris.

Allied Airdrome In India Attacked By Nippon Planes

NEW DELHI, Oct. 26.—(C.P.)—Japanese aircraft yesterday attacked the Allied airdrome at Chittagong, India, and several other airfields in northeast Assam province, near the Burma border, it was announced today.

Civilian and military casualties were extremely light and damage was small, it was added.

Nazis Get 25,000 French Workers

VICHY, Oct. 26.—(AP)—A tabulation made in the German-occupied zone showed Saturday that France has supplied only 25,000 workers for Germany and still is short 125,000 of the number demanded for the release of 50,000 French war prisoners.

Barrister Dies

VANCOUVER, Oct. 26.—(C.P.)—W. Martin Griffin, K.C., 67, eminent counsel in admiralty and civil law, died in hospital here Saturday.

Screen Star Weds Airman

Arline Judge, screen actress, was married and served with a summons within a few minutes at Santa Barbara, Calif. A constable followed her almost to the altar to present papers in a back-sit litigation. She is shown after the ceremony with her husband, Capt. James Addams of the Royal Air Force.

Pay by Play

DAVID PRESTON,
BY PAUL

THE STORY: Blythe Miller is in love with Duane Hogan, captain of the Lincoln Field cadet football team, which has been given work and a place to live with him. Blythe, a young widow, has been given work and a place to live with him. Blythe, a young widow, has been given work and a place to live with him. Blythe, a young widow, has been given work and a place to live with him.

CHAPTER VII
AFTER that U.S.O. dance for the cadets at Lincoln, "everybody" seemed to know that Duane Hogan was rushing pretty Nancy Hale. The newspaper columnist asserted the people in spreading the talk. And it made "nobody" good news because big Duane and M. College was notoriously girly. Only Duane himself seemed not to hear the news.

Happiest of all was Nancy Hale. The young widow who had known so little of gaudy and good times now seemed to find them served to him with figurative whipped cream. The cadet flyers were all boys just out of college. To be among them, in a "hot" apartment over their gymnasium, to work as secretary for their coach—this was little short of perfect. Her baby son, Scooter, had perils and attention showered on him. He had not one but two completely diminutive Lincoln football uniforms. And it was known that both he and his mother would be on the Lincoln bench at every game. It was "understood" too, that they would sit by Duane, during such moments as he wanted in action.

After Thursday's dance, Nancy and Blythe Miller had become rather intimate again. It made Blythe uncomfortable, but it

couldn't be helped. Blythe was in love with Duane Hogan, captain of the Lincoln Field cadet football team, which has been given work and a place to live with him. Blythe, a young widow, has been given work and a place to live with him. Blythe, a young widow, has been given work and a place to live with him.

"Darling," Nancy spoke impulsively, from deep in her heart, "I have to thank you again for helping me. I don't know what you said to him, or what you did. But I'm making progress."

It made Blythe want to cry in anger, in frustration, in tears, having to see her mistaken taken. She hadn't done anything to "help" Nancy Hale win him. Indeed, she hadn't done anything to "help" Nancy Hale win him.

It was during this same noon hour when Nancy's bell rang, and she called down for Duane to come up to visit.

But that's what she forced herself to think. "After all, I have known Duane for two years. I had him for a friend before she did. Maybe—this was childish thinking even though she wouldn't admit it—maybe he regards her as just a friend, too. Even if he did send her orchids."

Doors were coming through the floor. He was coming like a little boy. Baby Scooter, who had been exploring under the bed, heard him and came whooping and shrieking in glee.

"Hi, feller!" Duane boomed out. "Hello, Bly! Hello!" Look here, Scooter, old man!"

Scooter old man paused in astonishment.

Duane was squatting on one heel, cowboy fashion. The girl looked on entranced. Wriggling, licking, panting, snuggling in big Duane's arms were two huge fuzzy furballs, between which was an unmistakable puppy.

"OOO-Oooooo!"

Scooter breathed it involuntarily. It was as if he had burst in unexpectantly upon Santa Claus.

That was the kind of thing which endeared Duane Hogan to everybody. Blythe knew he never talked much; indeed, he was something of a mystic, as young men are. But a girl would sit happily with him for hours if need be; just sit. Blythe herself had done it. In his car, or her own, back when cars were common. In the library. In the theatre. In the museum. In the silent western, they kidded him for his slow, self-conscious grin. But all the while he seemed to exude strength and competence, a sensitivity and a comradeship. You didn't have to do anything with him; you could just feel what was in his heart and mind. Which is one rea-

son why Blythe so deeply loved him. . . .

The newsmen who came out for the Friday practice behind the Aggie game took pictures of Scooter in uniform hiding big-eyed "Link." That name was short for Lincoln, and good enough for a Cocker spaniel who stumped all over himself. He wasn't any bigger than the old football that Coach Pop Miller gave him and Scooter to play with, and he was about the same color as the ball. It was a leash made from shoelaces which he chewed interminably. Between times, he chewed Scooter, or strangled with sundry rappings to follow big Duane Hogan around the field.

Duane holding Scooter on a shoulder, with Link on top of Scooter in turn, finally made the photograph that the newspapers used. They put it on the front page, too. Everybody everywhere was laughing about the pretty Hale widow, the baby Hale son, and now the dog—three mascots of the Lincoln Field team. But nobody, except Blythe herself, seemed to understand how thoroughly and painfully those three had replaced yesterday's Blythe Miller, the coach's daughter, an unofficial mascot and heart-interest of the team.

All of this was excellent if unintentional buildup for tomorrow's game with the Aggies—one of the two main events of the season. For Pop Miller, the Lincoln coach, had called the most cadet-favorite to play football with him. And now the dog—three mascots of the Lincoln Field team. But nobody, except Blythe herself, seemed to understand how thoroughly and painfully those three had replaced yesterday's Blythe Miller, the coach's daughter, an unofficial mascot and heart-interest of the team.

On this Friday afternoon, Nancy was waiting for an errand for Pop, her employer, when Pop's office door opened an inch or two. Pop looked out. A man with a derby and two visible gold teeth came in. He wore an overcoat which he turned up collar. He was quick-eyed. He looked everywhere. Then he closed the door behind him.

"You all alone, eh?" he asked Pop. Pop said, "Yes, Bul!" Pop was somewhat suspicious.

"Okay, Pop, listen." The little didn't sound respectful, coming from this man. He spoke in a not in the hearty happy-go-lucky manner usually heard here in the town.

"Don't believe I remember your name, sir," Pop said. "Take a chair there—"

"No, that's all. Least talk the better. Right down to facts, see. Business. . . . Nobody listening. Nobody seen me come in here, see. But here's an envelop with five grand in it."

"Five-five gr—"

"Yeah! You got it! Five thousand dollars, Pop! You're marvellous! All you gotta do—see to it the Lincoln team don't win!"

(To Be Continued)

Gay Vanity Table is Easy to Make Underneath It's A Packing Box

This is what your bedroom needs—a southern-belle vanity! Between frothy ruffles of red-dotted white swiss you get tantalizing glimpses of red ribbon, run through beading and tied in bows.

You can make the table from a packing box! Stand the box on end, with open side front, and nail on a decorative, shape board for the top. On this you stretch first a piece of white satin lining, then a piece of dotted swiss, fold over edges and tack underneath.

Stretch the lining as long as from top to floor and the same width as around front and sides. Measure twice the width for cuffs and vary ruffles in depth.

See a length of beading (you buy it by the yard) to the top of each ruffle and tuck the ruffle to the lining with double-stap tape (except for the top one, basted on, so you can wash the lining, too, just double-snap it to table).

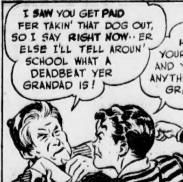

Beading, with pretty curtains and neapred to match! Our 32-page booklet details making the vanity. Also tells how to make extensively a book-rack side table.

Send 35c in coins for your copy of "Hand-Made Gift Novelties" to The Central American Bulletin, Home Service, 60 Front Street West, Toronto, Ont. Be sure to write plainly your name, address, and the name of booklet.

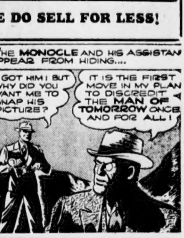

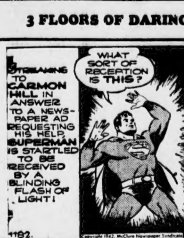

Please allow a week or ten days for delivery.

The Central American umbrella bird is named for a crest of black feathers which can be lowered to cover its face.
